

MUSANDAM POWER COMPANY SAOG

Business Continuity Policy

Musandam Power Company is committed to generate power at Musandam power plant & maintain It, to meet power demand in Musandam as per the dispatch requirement with maximum uptime, in line with power purchase agreement (PPA), and to the satisfaction of our valued customers, partners and other stakeholders through the following tasks:

- Developing ability to detect, prevent, minimize, and manage the impacts of disruptive events.
- Place a culture of business continuity management that feeds into the MPC planning and management process.
- Prioritize the immediate safety of its employees by spreading awareness and ensuring the Business Continuity Plan (BCP) is kept up-to-date and employees are trained and aware of their roles & responsibilities.
- Enable quick recovery from a disruptive event to meet the timely operational needs of the organization's customer and maintain the reputation/image of our brand.
- Compliance with all the statutory and regulatory standards through its adoption of business continuity management implementation and practices.

The policy is reviewed periodically for adequacy and is made available for interested parties upon request.
